

Organized by NPO Hands On Tokyo

~After School Diversity World~

Super Diversity Volunteering in Our City!"

Starting April 2023, elementary and junior high school students living in the same community will volunteer together.

We aim to provide a place for children who do not usually have the opportunity to come into contact with each other to meet and connect through volunteer activities. Let's get together and have some fun!

Calling all Volunteers!

1. Elementary and junior high school students living in the Aoyama area
2. Those interested in international exchange and interaction with other generations
3. Those would like to do volunteer activities

✂We value the children's independence and interaction with each other. We ask that parents/guardians refrain as much as possible from doing activities with their children at the event.

✂If you need assistance, please let us know at the time of registration.
